

There are many ways you can meet the CCAP Health, Safety and Child Development training requirements.

Find the one option that works best for you.

Option 1 Training Route

- ▶ Child Abuse and Neglect/Mandated Reporter Training
- ▶ CPR/First Aid Certification
- ▶ ECE Credential Level 1 Training (Tiers 1, 2, 3; 16 Modules)
- ▶ What is CCAP? (for directors and primary caregivers defined above)

Option 2 School-Age Route

Providers who only care for school-aged children (ages 5-13), can choose to take the School-Age and Youth Development Credential Level 1 Training. They would complete the following:

- ▶ SAYD Credential Level 1 Training (Modules 1, 2a, 2b, 2c, 4a & 4b)
- ▶ CPR/First Aid Certification
- ▶ Child Abuse and Neglect/Mandated Reporter Training
- ▶ What is CCAP? (for directors and primary caregivers defined on previous page)

For the purpose of CCAP, a school age child is a child ages 5-13 (or through the age of 18 if approved for CCAP due to a special need or court order) who is enrolled in school. A five year old child is considered school age only when enrolled in a school based kindergarten. This enrollment does not include a before/after school program.

Option 3 Higher Level Credential Route

Obtain one of the following Gateways Credentials to meet the ECE Level 1 Training Requirements

- ▶ ECE Credential Levels 3-6
- ▶ Infant Toddler Credential (ITC) Levels 3-5
- ▶ Illinois Director Credential (IDC) Credential Levels I-III
- ▶ Family Child Care Credential (FCC) Levels 2-5

Then complete the following:

- ▶ CPR/First Aid Certification
- ▶ Child Abuse and Neglect/Mandated Reporter Training
- ▶ What is CCAP? (for directors and primary caregivers defined on previous page)

Option 4 ECE or ITC Credential Level 2 Route

Obtain one of the following Gateways Credentials

- ▶ ECE Credential Level 2
- ▶ Infant Toddler Credential (ITC) Level 2

Then complete the following:

- ▶ ECE Credential Level 1 Tier 2 Training
- ▶ CPR/First Aid Certification
- ▶ Child Abuse and Neglect/Mandated Reporter Training
- ▶ What is CCAP? (for directors and primary caregivers defined on previous page)

Option 5 CDA Route

Obtain one of the following Child Development Associates (CDA) to meet the ECE Level 1 Tier 1 Training Requirements and self-report this certification into the Registry.

- ▶ Preschool CDA
- ▶ Infant Toddler CDA
- ▶ Family Child Care CDA

If you have a Preschool CDA then complete the following:

- ▶ Sudden Infant Death Syndrome (available only online through i-learning)
- ▶ A Preventable Tragedy: Shaken Baby Syndrome (available only online through i-learning)
- ▶ CPR/First Aid Certification
- ▶ Child Abuse and Neglect/Mandated Reporter Training
- ▶ ECE Credential Level 1 (Tier 2 & Tier 3)
- ▶ What is CCAP? (for directors and primary caregivers defined above)

If you have an Infant Toddler CDA or Family Child Care CDA then complete the following:

- ▶ A Preventable Tragedy: Shaken Baby Syndrome (available only online through i-learning)
- ▶ CPR/First Aid Certification
- ▶ Child Abuse and Neglect/Mandated Reporter Training
- ▶ ECE Credential Level 1 (Tier 2 & Tier 3)
- ▶ What is CCAP? (for directors and primary caregivers defined on previous page)
