When creating a responsive learning environment for infants and toddlers, the interests and developmental level of the children being served is key. Listen as presenters discuss the importance of creating a classroom that fosters trust and security for infants and toddlers. Discover strategies teachers can use in their classrooms.

Note: The evaluation, certificate, and engagement tools mentioned in the video were for the participants of the live webinar and are no longer available. For information about webinars that will be broadcast live soon, visit Upcoming Events </upcoming-events>.
