Quarterly Reporting – How to Correct a Budget Report.

An SGCC Budget Report must be reviewed and accepted to receive future grant payments. A Budget Report can be considered incomplete for the following reasons:

- The budget report is submitted blank. When doing reporting it will show what was **Budgeted** and you must fill in the **Spent** column. For Budget Report to be accepted it must be completed.
- The Budget Report does not match the grant amount penny for penny. The total spent does not match the total received. For a Budget Report to be accepted the total spent must match the total received.
- Did not spend at least 50% on enhanced personnel. For a budget report to be accepted the program must spend and report at least 50% in enhanced personnel expenses.

If you submitted a Budget Report and one or more of the items above are incorrect you will need to correct your Budget Report. Follow the steps below to make these corrections and resubmit.

- 1 Click on the SGCC Application card in the Director Portal. Then, click the calculator button by your application. (This will take you to your budget requests for each grant period.).
