## II. Assessment Task Description/ Directions

Drawing from your understanding of the role and influence of families and communities on children's development, learning, the early childhood setting, and the role of the early childhood professional in facilitating this impact, create a comprehensive family-school collaboration plan. Include both school/ center-wide and classroom strategies that stem from an authentic collaborative perspective. Incorporate effective uses of technology that will appropriately engage diverse families. The plan must demonstrate your understanding of how to implement effective strategies for building and leading teams to collaborate effectively with professional colleagues, students, parents or guardians, and community members to foster the cognitive, linguistic, physical, and social and emotional development of your students/ children.

**Technology Option:**  
- Website options  
- Interactive options (embedded hyperlinks or videos for reflection)

The plan should include a comprehensive accompanying narrative within each section that provides both the rationale for the use of each strategy that articulates how it promotes authentic collaboration with families and incorporates culturally and linguistically responsive practice.

Regardless of organizational structure of the project (example given below) or classroom setting, the one-year plan must include:

- A statement of how families and communities impact children's development and learning, and the role of the early childhood professional in facilitating this impact
- Ways to promote meaningful connections among families and community resources
- Culturally- and linguistically responsive practices that are supportive of family development and promote culturally sensitive expectations for children's development and learning
- Communication and collaboration strategies that you see as essential in the design and implementation of your family engagement plan
- Specific strategies you will implement to encourage collaboration at the classroom and center/ school levels with other team members and ECE professionals
- Specific strategies you will use to involve families as team members in meaningful and consistent ways in the assessment process, and how this information will be used to inform children's goals
