

STRENGTHEN AND GROW

CHILD CARE GRANTS

APPLICATION BUDGET WORKSHEET

Strengthen and Grow Child Care (SGCC) Grant Funds can be spent in a variety of categories, but 50% of your total award must be spent on new personnel and workforce development related costs. Only report expenses that you will use Strengthen and Grow Grant Funds for. You cannot charge expenses to the Strengthen and Grow Grant program that are covered by another dedicated funding source (Head Start/Early Head Start, Preschool for All/Prevention Initiative, etc.). Below is a list of the expense categories with definition that can be used. You do not need to have expenses in each category.

Your budget must add up to the awarded grant amount, and 50% of the budget must be allocated to **new** personnel costs. You will not be able to submit the budget successfully until these two requirements are met.

1. **Personnel Costs (must add to 50% or more of total):**
2. **Raises or Wage Enhancements:** Wage enhancements or raises for current staff or salaries for new positions created to support existing staff. To be counted as an employee, you must be withholding state and federal taxes and paying the employer's share of FICA. If you are a Family Child Care provider, you may enter what you plan to pay yourself monthly using these funds.
3. **Fringe Benefits:** This includes enhancements or new fringe benefits provided to employees.
4. **Bonus:** Bonuses that will be paid out to employees within the month.
5. **Other Categories:** This could include items such as scholarships, mental health supports, COVID-19 testing, professional development, or substitute costs. You must describe each category on a separate line, adding as many lines as needed.
6. **Occupancy Costs:** Enter the total dollar amount for rent/mortgage being charged to the grant. If you are a Family Child Care Home, you may charge the percentage of rent/mortgage that is attributable to your home business. For tax reporting, you may be using the simplified method OR the time space percentage method to assign expenses to your business.
7. **Utilities:** Gas, water, electric, and telephone expenses may all be charged to this line.
8. **Food Services:** Expenses related to snacks and meals not reimbursed by the Child and Adult Care Food Program (CACFP).
9. **Supplies (Consumables):** Educational supplies, food and food supplies, office supplies, and cleaning supplies
10. **COVID-19 Testing and Related Supports:** expenses related to COVID-19, such as COVID testing for yourself, staff, or children or travel expenses or time off for testing.
11. **Equipment:** Enter the total dollar amount you will spend on equipment, cots, chairs, toys, etc. Examples would be partitions to enforce social distancing or hand washing stations.
12. **Contractual Services:** Enter the total dollar amount for contractual services. This could include janitorial services, cleaning services, trainers for staff, etc.
13. **Consultant (Professional Services):** Enter the total dollar amount for consultant services, such as nurse consultant, social services consultant, mental health consultant, etc.
14. **Direct Administrative Costs:** Enter the total for administrative costs such as postage, printing, bookkeeping services, etc.

15. Other/Miscellaneous: Enter the total dollar amount for costs not captured in the other expense categories.

16. Indirect Costs: Agency indirect costs may be listed here but, you are limited to no more than 10% of the grant amount. Family Child Care Homes may not claim indirect costs.

When applying for a Strengthen and Grow Child Care Grant, programs must submit a budget as part of the online application. Use the worksheet below to prepare your budget for entry online. This will help you think through how the grant can be used within your specific program.

Quarterly Strengthen and Grow Child Care Expenditure Worksheet	
Estimated Quarterly Award Amount: _____	
Homes: \$2,500; Group Home: \$3,750; Center \$6,250 per classroom	
A	B
