Assessment Guidelines

In this assessment, you will have an opportunity to explore foundational requirements for SAY professionals. You will also conduct a reflective assessment of your current strengths and opportunities for development, then developing goals based on your assessment. Reflection and goal development are critical components of your ongoing journey as a professional.

This assessment has four parts. In Part 1, you will provide an overview of essential knowledge for SAY practitioners. In Part 2, you will give an overview of your professional strengths and opportunities for development. In Part 3, you will identify goals and action steps needed to attain those goals. Part 4 requires that you identify strategies that will support your goal attainment.

Part One: Foundational SAY Knowledge

Professionals in school age and youth are required to shape practice based on guidelines and standards that exist in the field. As an introduction to your Assessment, and as a strategy to review foundational knowledge, please respond to each of the following:

- Provide an overview of the rights of individuals with disabilities relative to the federal, state, and local level.
- Describe the key components of each of the following:
 - Relevant codes of ethics
 - Legal, ethical, and moral responsibilities of the SAY professional
 - Relevant ADA guidelines
- Legal requirements and programming standards and how these can effectively be communicated to the public.
- The influence of policies such as zero-tolerance on SAY and their families.
- Key roles within the family, school, and community who provide services, supports, and opportunities for school age and youth.

Part Two: Overview of Professional Strengths and Opportunities for Development

For each of the areas included in the chart below, indicate your current strengths and areas for additional development. At the bottom of the chart, provide commentary outlining the rationale for your suggestions.

Indicator of Effective SAY Practitioners	Strength	Opportunity for Development
Identifies professional organizations, associations, publications, and online resources that contribute to the SAYD field.		
Identifies options for professional growth activities.		
Teams with, and provides reports or updates to those who are responsible for providing oversight and adherence to strategic planning goals, including professional organizations.		
Identifies resources and strategies to support the development of new projects, programs, and professional development.		
Reflects on role as a team member and practices collaborative principles when involved in group work.		
Engages in self-reflection supporting appropriate activities and interactions, knowledge of personal background and biases, and understanding of foundational and current school-age and youth development issues, policies, and contexts.		
Demonstrates respect for individual families, school-age and youth, and colleagues relative to differences in strengths, challenges, perspectives, and actions.		
Solicits and accepts targeted feedback from supervisors and colleagues related to stated goals when working with school-age and youth.		
Commentary (provide a rationale for selections made):		

Part Three: Goal Development and Action Steps

In this portion of your assessment, you will identify professional goals that will support your continued development as a SAY professional. Based on your strengths and opportunities for growth identified above, create five action steps that you can take to support your growth and development as a SAY practitioner.

Goal Development

- 1.
- 2.
- 3.
- 4.
- 5.

Part 4: Professional Development Plan

Provide an outline of how you will support your ongoing professional development through each of the following:

- Participation in professional membership organizations
- Participation in targeted growth activities
- Participation in service and volunteer opportunities.
